

Description Item Year of manufacture/Marking/Batch numbers

With the RADIALIS PRO, the marking is in the pocket behind the labeling field, on the left of the hip belt pad.

The year and month of manufacture can be found on the back of the manufacturer fabric tag. **Products with a manufacturing date of 2019 09 and earlier are not affected. Products as of the 2019 10 date are affected.**

For owners of the TREECORE belt only the batch number of the SLIDING D-KIT is relevant!

For the CORE harnesses, the label can also be found in the pocket on the back of the right leg loop.
